

Francis Abbott, 1834, by Thomas Mitchell

ABBOTT STREET – Francis Abbott (1834-1903) Botanist Second Superintendent of Hobart Botanical Gardens 1859-1903

Tree types: Fraxinus oxycarpa*, Ulmus parvifolia
Average age: 40-60 years *Average remaining life:* 0-20 years

Adelaide Avenue, 1900, by Thomas Mitchell

ADELAIDE AVENUE – Capital of South Australia

Tree types: Eucalyptus bicostata, Eucalyptus cinerea, Eucalyptus mannifera ssp. maculosa

Average age: 40-60 years *Average remaining life:* 0-20 years

Alexadrina Drive, 1900, by Thomas Mitchell

ALEXANDRINA DRIVE – Lake Alexandrina is located in South Australia. The lake was named after Princess Alexandrina (later Queen Victoria).

Tree types: Mixed planting including Casuarina cunninghamiana, Eucalyptus bicostata, Eucalyptus cinerea, Eucalyptus melliodora, Pinus radiate, Quercus palustris, Quercus robur, Quercus robur 'Fastigiata', Salix vitelline, Ulmus carpinifolia

Average age: 40-60 years *Average remaining life:* 0-20 years

Arkana Street, 1900, by Thomas Mitchell

ARKANA STREET – Aboriginal word meaning ‘boomerang’

Tree types: Eucalyptus mannifera ssp. maculosa.
Average age: 40-60 years *Average remaining life:* 20-40 years

Baileys Place, 1900, by Thomas Mitchell

BAILEY PLACE – Frederick Manson Bailey (1827-1915) Queensland Colonial Botanist 1881-1915; wrote ‘Queensland Flora’.

Tree types: Fraxinus excelsior
Average age: 40-60 years *Average remaining life:* 0-20 years

Banks Street, 1900, by Thomas Mitchell

BANKS STREET – Sir Joseph Banks (1743-1820) Botanist with Captain Cook’s expedition on the Endeavour in 1768-71.

Tree types: Cedrus atlantica (F. Glauca), Prunus cerasifera 'Nigra', Prunus cerasifera ‘Pissardii’

Average age: -60-80 years *Average remaining life:* 20-40 years

Bentham Street, 1900, by Thomas Mitchell

BENTHAM STREET – George Bentham (1800-1884) Botanist and writer on Australian flora. Author of the 7 volume ‘Flora Australiensis’ (1863-78).

Tree types: Robinia pseudoacacia, Sophora japonica, Pinus Sp
Average age: 40-60 years *Average remaining life:* 20-40 years

Bidwill Close, 1900, by Thomas Mitchell

BIDWILL CLOSE – John Carne Bidwill (1815-1853) Director of Sydney Botanic Gardens 1847-49, and Government Botanist during 1847-1848. Later established a Botanic Garden in Tinana, Queensland.

Tree types: Grevillea Robusta
Average age: 20-40 years *Average remaining life:* 20-40 years

Black Street, 1900, by Thomas Mitchell

BLACK STREET – John McConnell Black (1855-1951) A recognized authority on the botany of South Australia; published ‘The Naturalised Flora of South Australia’ (in four parts) 1922-29.

Tree types: Quercus lusitanica
Average age: 40-60 years *Average remaining life:* 40 years

Blakely Row, 1900, by Thomas Mitchell

BLAKELY ROW – William Faris Blakely (1875-1941) Botanist who developed comprehensive system for classifying eucalyptus.

Tree types: Fraxinus oxycarpa 'Raywood'
Average age: 40-60 years *Average remaining life:* 0-20 years

Broome Crescent, 1900, by Thomas Mitchell

BROOME CRESCENT – Sir Frederick Napier Broome (1842-1896) Governor of Western Australia, 1883-89.

Tree types: Prunus cerasifera 'Nigra'
Average age: 0-20 years *Average remaining life:* 20-40 years

Brown Street, 1900, by Thomas Mitchell

BROWN STREET – Robert Brown (1773-1858) Botanist and naturalist who accompanied Matthew Flinders expedition of 1801 to 1803. He published various works on the flora of Australia, including botanical appendices for Flinders and Sturt’s books on exploration. He was also the scientist after whom ‘Brownian motion’ is named.

Tree types: Fraxinus oxycarpa
Average age: 40-60 years *Average remaining life:* 20-40 years

Cambage Street, 1900, by Thomas Mitchell

CAMBAGE STREET – Richard Hind Cambage (1859-1928) Botanist and surveyor of NSW. He was a student of William Woolls. He made significant studies on Eucalyptus and Acacia.

Tree types: Acer negundo*, Fraxinus velutina
Average age: 20-40 years *Average remaining life:* 20-40 years

Clarke Street, 1900, by Thomas Mitchell

CLARKE STREET – Lt. Col. Andrew Clarke (1793-1847) Governor of Western Australia, 1846-47.

Branwhite Clarke (1798-1878). Geological Surveyor of NSW (1851-53) and reported on the goldfields in NSW and Victoria.

Tree types: Fraxinus oxycarpa
Average age: 40-60 years *Average remaining life:* 20-40 years

Coronation Drive, 1900, by Thomas Mitchell

CORONATION DRIVE – To commemorate the coronation of Queen Elizabeth II

Tree types: Mixed planting including: Chamaecyparis lawsoniana, Cupressus torulosa, Quercus robur, Quercus variabilis, Sequoia sempervirens, Ulmus parvifolia
Average age: 20-40 years *Average remaining life:* 20-40 years

Cotter Road, 1900, by Thomas Mitchell

COTTER ROAD – Garrett Cotter (1802-?) Born in Ireland, he arrived in New South Wales in 1822 aboard the ‘Mangles 2’; after working in the Campbelltown and Lake George areas, he was granted a ticket-of-leave in 1832, conditional on him staying on the western side of the Murrumbidgee; he lived alone there and was accepted by the Aborigines of the area; in 1841 he married Ann Russell; Cotter was given a conditional pardon in 1846 that gave him freedom of movement, except in Britain and Ireland; with his wife, Ann, he became a pioneer of the mountainous region of the present Namadgi National Park; the Cotter River is named after Garrett Cotter and the name was first officially used in 1839.

Tree types: Ulmus species
Average age: 20-40 years *Average remaining life:* 60-80 years

Darwin Avenue, 1900, by Thomas Mitchell

DARWIN AVENUE – Capital of the Northern Territory

Tree types: Mixed species
Average age: 20-40 years *Average remaining life:* 20-40 years

Deane Street, 1900, by Thomas Mitchell

DEANE STREET – Henry Deane (1847-1924) An accomplished botanist associated with J.H. Maiden in the work on the genus ‘Eucalyptus’ and Engineer in Chief, New South Wales Railways (1890-1906) and Engineer in Chief of the Commonwealth Railways Construction Branch 1912-14.

Tree types: Koelreuteria paniculate #
Average age: 40-60 years *Average remaining life:* 0-20 years

Denman Street, 1900, by Thomas Mitchell

DENMAN STREET – Thomas Denman (1874-1954) Baron, Governor-General of the Commonwealth, 1911-14.

Tree types: Quercus bicolour
Average age: 60-80 years *Average remaining life:* 20-40 years

Drummond Row, 1900, by Thomas Mitchell

DRUMMOND ROW – James Drummond (1783-1863) Western Australia Government’s naturalist, and also superintendent of the Western Australian government gardens. He discovered many species of Australian plants.

Tree types: Pistacia chinensis
Average age: 40-60 years *Average remaining life:* 20-40 years

Dudley Street, 1900, by Thomas Mitchell

DUDLEY STREET – Earl of Dudley [William Humble Ward] (1867-1932) Governor-General of the Commonwealth, 1908-11.

Tree types: Pinus radiate, Pinus patulam, Ulmus procera
Average age: 40-60 years *Average remaining life:* 40-60 years

Dunrossil Drive, 1900, by Thomas Mitchell

DUNROSSIL DRIVE – Viscount Dunrossil [Rt. Hon. William Shepherd Morrison] (1893-1961). Governor-General of the Commonwealth, 1960-61. Died at Government House, Yarralumla, buried at St. John’s Anglican Churchyard, Canberra.

Tree types: Ulmus sp.
Average age: not listed *Average remaining life:* not listed

Empire Circuit, 1900, by Thomas Mitchell

EMPIRE CIRCUIT – The British Empire
Tree types: Eucalyptus mannifera ssp. maculosa
Quercus palustris

Average age: 60-80 years *Average remaining life:* 20-40 years

Ewart Street, 1900, by Thomas Mitchell

EWART STREET – Alfred James Ewart (1872-1937) The first Professor of Botany at Melbourne University, 1906-37 and the first Chair of Botany in an Australasian University. He was also the Victorian Government Botanist until 1921. He was President of the Royal Society of Victoria, 1920-21.

Tree types: Fraxinus oxycarpa
Average age: 40-60 years *Average remaining life:* 0-20 years

Fitzgerald Street, 1900, by Thomas Mitchell

FITZGERALD STREET – Captain Charles Fitzgerald (1791-1887) Governor of Western Australia, 1848-55.

Tree types: Quercus palustris
Average age: 40-60 years *Average remaining life:* 20-40 years

Flynn Drive, 1900, by Thomas Mitchell

FLYNN DRIVE – John Flynn OBE (1880-1951) Presbyterian Minister and Missionary; mainly responsible for the formation of the Australian Inland Mission Aerial Medical Service in 1928, the forerunner of the Royal Flying Doctor Service of Australia.

Tree types: Mixed planting including: Acacia decurrens, Eucalyptus bicostata, Quercus palustris, Populus Nigra ‘Italica’

Average age: 60-80 years *Average remaining life:* 0-20 years

Flynn Place, 1900, by Thomas Mitchell

FLYNN PLACE – John Flynn OBE (1880-1951)

Tree types: Mixed planting including: Acacia spp., Calocedrus decurrens, Eucalyptus bicostata, Pinus radiate, Populus alba, Populus nigra 'Italica', Platanus X Acerifolia

Average age: 40-60 years *Average remaining life:* 60-80 years

Forster Crescent, 1900, by Thomas Mitchell

FORSTER CRESCENT – Lord Forster of Lepe [Henry William Forster] (1866-1936) Governor-General of the Commonwealth, 1920-25.

Tree types: Cedrus atlantica, Fraxinus oxycarpa 'Raywood'
Average age: 20-40 years *Average remaining life:* 20-40 years

Francis Street, 1900, by Thomas Mitchell

FRANCIS STREET – George William Francis (1800-1865) First Director of the Adelaide Botanic Gardens, 1816-31.

Tree types: Quercus cerris
Average age: 40-60 years *Average remaining life:* 0-20 years

Fraser Place, 1900, by Thomas Mitchell

FRASER PLACE – Charles Fraser [Charles Frazer] (c1788-1831) The Colonial Botanist of NSW, 1821-31 and the first Superintendent of Sydney Botanic Gardens, 1816-31. He accompanied Oxley’s Expedition in 1817 and 1818.

Tree types: Crataegus phaenopyrum, Crataegus acerifolia
Average age: 40-60 years *Average remaining life:* 0-20 years

Guilfoyle Street, 1900, by Thomas Mitchell

GUILFOYLE STREET – William Robert Guilfoyle (1840-1912) Director of the Royal Botanic Gardens, Melbourne, 1873-1909.

Tree types: Quercus palustris
Average age: 40-60 years *Average remaining life:* 20-40 years

Gunn Street, 1900, by Thomas Mitchell

GUNN STREET – Ronald Campbell Gunn (1808-1881) Tasmanian botanist and writer on Australian flora. Editor of the ‘Tasmanian Journal of Natural Science’, 1842-49.

Tree types: Quercus robur
Average age: 40-60 years *Average remaining life:* 0-20 years

Hamilton Row, 1900, by Thomas Mitchell

HAMILTON ROW – Sir Robert George Hamilton (1836-1895) Governor of Tasmania, 1887-93. Helped found the University of Tasmania.

Tree types: Crataegus 'Smithiana'
Average age: 40-60 years *Average remaining life:* 0-20 years

Hampton Circuit, 1900, by Thomas Mitchell

HAMPTON CIRCUIT – John Stephen Hampton (1810-1869) Governor of Western Australia, 1862-68.

Tree types: Crataegus laevigata var. rosea, Pyrus Calleryana
Average age: 0-20 years *Average remaining life:* 40-60 years

Hill Corner, 1900, by Thomas Mitchell

HILL CORNER – Walter Hill (1820-1904) Queensland Colonial Botanist and first Director of the Brisbane Botanic Gardens 1855-81. He introduced tropical fruits to Queensland.

Tree types: Sophora japonica
Average age: 40-60 years *Average remaining life:* 0-20 years

Hooker Street, 1900, by Thomas Mitchell

HOOKER STREET – Sir William Jackson Hooker (1785-1865) First director of the Royal Botanic Gardens, Kew, Victoria 1841-65; and his son **Sir Joseph Dalton Hooker (1817-1911).** Director of the Royal Botanic Gardens, Kew 1865-85 and author of ‘An introduction to the flora of Tasmania’. He visited Tasmania as a surgeon and botanist on James Ross’s Antarctic Expedition 1839-42.

Tree types: Celtis australis *, Zelkova serrata
Average age: 60-80 years *Average remaining life:* 0-20 years

Hopetoun Circuit, 1900, by Thomas Mitchell

HOPETOUN CIRCUIT – Earl Hopetoun [John Adrian Louis Hope] (1860-1908). Governor of Victoria 1889-95, and the first Governor-General of the Commonwealth 1901-03.

Tree types: Eucalyptus mannifera ssp. maculosa
Average age: 40-60 years *Average remaining life:* 20-40 years

Hunter Street, 1900, by Thomas Mitchell

HUNTER STREET – Captain John Hunter R.N. (1737-1821) Captain on the ‘Sirius’ with Governor Phillip in 1788. Second Governor of NSW 1795-1800, surveyed Port Jackson, Botany Bay and Broken Bay.

Tree types: Celtis australis, Celtis occidentalis
Average age: 40-60 years *Average remaining life:* 20-40 years

Hutchins Street, 1900, by Thomas Mitchell

HUTCHINS STREET – Sir David Ernest Hutchins (1850-1920) Botanist and writer on Australian forestry; published ‘A Discussion of Australian Forestry’, 1916.

Tree types: Quercus palustris, Platanus X acerifolia
Average age: 60-80 years *Average remaining life:* 20-40 years

Hutt Street, 1900, by Thomas Mitchell

HUTT STREET – John Hutt (1795-1880) Governor of Western Australia 1839-46. Member of Wakefield’s National Colonisation Society in 1832.

Tree types: Fraxinus oxycarpa
Average age: 20-40 years *Average remaining life:* 20-40 years

Irwin Street, 1900, by Thomas Mitchell

IRWIN STREET – Lt.-Col. Frederick Chidley Irwin (1788-1860) Governor of Western Australia, 1847-48.

Tree types: Pistacia chinensis
Average age: 40-60 years *Average remaining life:* 20-40 years

Kaye Place, 1900, by Thomas Mitchell

KAYE PLACE – KAYE STREET – Joseph Kaye (1808-1895) Pioneer farmer, Canberra; worked briefly at Queanbeyan for Hurst and Buckley; became storekeeper and publican in partnership with W Hunt; leased ‘Springbank’ (Acton) in Canberra, 1842-52.

Tree types: Kay Place – mass plantings, Kaye Street - Ulmus parvifolia
Average age: 60-80 years *Average remaining life:* 0-20 years

Kintore Crescent, 1900, by Thomas Mitchell

KINTORE CRESCENT – Earl of Kintore [Algernon Hawkins Thomond] (1852-1930) Governor of South Australia, 1889-95.

Tree types: Platanus x acerifolia
Average age: 40-60 years *Average remaining life:* 20-40 years

Lady Denman Drive, 1900, by Thomas Mitchell

LADY DENMAN DRIVE – Gertrude Mary Denman (nee Pearson) GBE (1884-1954) Wife of Lord Denman, Governor-General of the Commonwealth, 1911-1914; after a nationwide competition for the choice of a name for the National Capital, Lady Denman made the announcement of the chosen name, Canberra, during the ceremony of laying the foundation stone of Canberra, 1913.

Tree types: Ulmus sp.
Average age: 40-60 years *Average remaining life:* 40-60 years

TURNER PLACE – Fred Turner (1852-1939)

Joined Brisbane Botanic Gardens in 1874. Joined the staff of the Botanic Gardens Sydney in 1880 and was appointed economic botanist in the new Department of Agriculture, NSW in 1890. Later a consulting botanist to the Western Australian Government.

Tree types: Sophora japonica

Average age: 40-60 years *Average remaining life:* 20-40 years

TURRANA STREET – Aboriginal word meaning ‘kangaroo’

Tree types: Eucalyptus mannifera ssp. maculosa

Average age: 60-80 years *Average remaining life:* 20-40 years

WELD STREET – Frederick Aloysius Weld (1823-1891)

Governor of Western Australia, 1869-74 and Tasmania, 1875-80.

Tree types: Fraxinus oxycarpa *, Ulmus parvifolia

Average age: 40-60 years *Average remaining life:* 0-20 years

WESTON PARK ROAD – Thomas Charles George Weston (1866-1935)

Officer-in-charge of afforestation for Canberra from 1913 to his retirement in 1926.

Tree types: Cedrus atlantica (F. Glauca)

Average age: 60-80 years *Average remaining life:* 40-60 years

WESTON STREET – Thomas Charles George Weston (1866-1935)

Tree types: Crataegus laevigata var. rosea, Quercus robur

Average age: 40-60 years *Average remaining life:* 0-20 years

WILF CRANE CRESCENT – Dr Wilf J.B. Crane (-1992)

CSIRO Division of Forestry. Graduate of the Australian School of Forestry, 1962. Died in plane accident.

WONNA STREET – Aboriginal word meaning ‘emu’

Tree types: Populus alba, Populus nigra 'Italica', Quercus palustris, Mixed species

Average age: 40-60 years *Average remaining life:* 20-40 years

WOOLLS STREET – William Woolls (1814-1893)

He was an educationist who wrote on the flora and fauna of NSW. He taught at Kings School and Sydney College before setting up his own school in Parramatta in 1841.

Tree types: Fraxinus oxycarpa 'Raywood', Pistacia chinensis

Average age: 40-60 years *Average remaining life:* 0-20 years

The street trees listed are those planted up to the end of the planting season, March 2001, supplemented by trees referred to in a 2013 Canberra Times article which also included the average age of the trees and their estimated average remaining life. The Canberra Times article referred to the partial release of a 2009-12 audit of Canberra's street by the Territory and Municipal Services Directorate. This information has not been confirmed. The basic list was compiled by Canberra Urban Parks and Places in conjunction with the Forestry Department at the Australian National University.

* Indicates the species is being phased out in this street under a formal street tree replacement program by Canberra Urban Parks and Places.
This tree is related to the Koeleria elegansssp. Formosana, which is on the Federal Government's Alert List for Environmental Weeds, a list of 28 non-native plants that threaten biodiversity and cause other environmental damage.

NOVAR STREET – Viscount Novar of Raith [Sir Ronald Munro Ferguson] (1860-1934)

Governor-General of the Commonwealth, 1914-20; promoted a national interest in afforestation for Australia.

Tree types: Cedrus atlantica (F. Glauca), Liquidambar styraciflua
Average age: 60-80 years *Average remaining life:* 20-40 years
Average age: 20-40 years *Average remaining life:* 20-40 years

PERTH AVENUE – Capital of Western Australia

Tree types: Eucalyptus mannifera ssp. maculosa

Average age: 40-60 years *Average remaining life:* 20-40 years

PESCOTT LANE – Edward Edgar Pescott (1872-1956)

Botanist and horticulturalist; Principal of the Government School of Horticulture, Burnley, Victoria, 1909-1916; homologist and seed tester, Department of Agriculture, Victoria, 1917-37.

Tree types: Part of Weston Park planting including: Eucalyptus bicostata, Eucalyptus elata, Quercus palustris, Quercus robur, Ulmus spp.

Average age: 40-60 years *Average remaining life:* 40-60 years

QUEEN VICTORIA TERRACE – Reigning monarch at the time of Federation in 1901.

RHODES PLACE – Cecil John Rhodes (1853-1902)

British Colonial and Imperial statesman; Prime Minister of Cape Colony, 1890-1896; Founder of the Rhodes Scholarship to Oxford University for British Commonwealth post-graduate students.

Tree types: Eucalyptus elata

Average age: Not listed *Average remaining life:* Not listed

RODWAY STREET – Leonard Rodway (1853-1936)

Botanist and author, honorary Government Botanist of Tasmania, 1896-1932. Published 'The Tasmanian Flora', 1903, a standard reference for 40 years. Director, Tasmanian Herbarium, 1928. Trustee, and later Director of, Tasmanian Museum and Botanical Gardens. Lecturer in Botany at the University of Tasmania, 1923-29.

Tree types: Fraxinus excelsior *, Ulmus parvifolia

Average age: 40-60 years *Average remaining life:* 0-20 years

SCHLICH STREET – Sir William Schlich (1840-1921)

British forester and writer on Australian forestry.

Tree types: Quercus palustris

Average age: 60-80 years *Average remaining life:* 20-40 years

SCHOMBURGK STREET – Moritz Richard Schomburgk (1811-1891)

Director of the Adelaide Botanic Gardens, 1865-91.

Tree types: Eucalyptus cinerea

Average age: 40-60 years *Average remaining life:* 20-40 years

SOLANDER PLACE – Daniel Carl Solander (1733-82)

Scientific assistant to James Cook's first voyage to the Pacific on board the Endeavour 1768-71, and later secretary and librarian to Joseph Banks.

Tree types: Casuarina cunninghamiana

Average age: 60-80 years *Average remaining life:* 0-20 years

STATE CIRCLE – The States of the Commonwealth

Tree types: Eucalyptus spp., Ulmus sp.

Average age: Not listed *Average remaining life:* Not listed

STRAHAN ROW – Major Sir George Cumine Strahan (1838-1887)

Governor of Tasmania, 1881-86. Responsible for convening the Federal Council of Australasia, Hobart, 1886.

Tree types: Crataegus 'Smithiana', Pistacia chinensis

Average age: 0-20 years *Average remaining life:* 40-60 years

LANE-POOLE PLACE – Charles Edward Lane-Poole (1885-1970)

Forester; appointed Forest Advisor to Commonwealth Government, 1925; Inspector-General of Forests, Commonwealth Forestry Bureau, 1927-45; Joint founder and acting principal, Australian Forestry School, 1927-44.

Tree types: Pinus sp.

Average age: 20-40 years *Average remaining life:* 20-40 years

LOCH STREET – Sir Henry Brougham Loch (1827-1900)

Governor of Victoria, 1884-1889.

Tree types: Fraxinus oxycarpa 'Raywood'

Average age: 40-60 years *Average remaining life:* 0-20 years

LOFTUS STREET – Baron Loftus [The Rt. Hon. Augustus William Frederick Spencer] (1817-1904)

Governor and Commander-in-Chief of NSW, 1879-85.

Tree types: Quercus bicolor, Sophora japonica

Average age: 40-60 years *Average remaining life:* 20-40 years

MACDONNELL STREET – Sir Richard MacDonnell (1814-1881)

Governor of South Australia, 1855-62.

Tree types: Liquidambar styraciflua

Average age: 40-60 years *Average remaining life:* 20-40 years

MACGILLIVRAY STREET – John MacGillivray (1821-1867)

Botanist and natural history collector for the Earl of Darby on board the HMS Fly on its marine survey of Australia and New Guinea, 1842-45. Naturalist on the HMS Rattlesnake to Australia, 1847-50.

Tree types: Fraxinus velutina

Average age: 40-60 years *Average remaining life:* 20-40 years

MAIDEN STREET – Joseph Henry Maiden (1859-1925)

Curator of the new Technological Museum Sydney in 1880 and in 1886 Director of the Botanic Gardens and NSW Government Botanist.

Tree types: Fraxinus oxycarpa

Average age: 40-60 years *Average remaining life:* 20-40 years

MARINER PLACE – Dedicated to sailors and seamen

Tree types: Platanus orientalis

Average age: 20-40 years *Average remaining life:* 40-60 years

MAXWELL STREET – George Maxwell (1804-1880)

Botanist; authority on Western Australian flora. Assisted Drummond and Mueller.

Tree types: Quercus montana

Average age: 40-60 years *Average remaining life:* 20-40 years

MOONAH PLACE – Aboriginal word meaning ‘gum tree’

Tree types: Eucalyptus blakelyi, Eucalyptus mannifera ssp. Maculosa, Eucalyptus melliodora, Eucalyptus sp.

Average age: 60-80 years *Average remaining life:* 20-40 years

MUELLER STREET – Baron Sir Ferdinand Von Mueller (1825-1896)

Government Botanist of Victoria, 1852 and Director of the Melbourne Botanic Gardens, 1857-73. He was the naturalist on Augustus Gregory's expedition to northern Australia of 1856.

Tree types: Celtis australis

Average age: 60-80 years *Average remaining life:* 20-40 years

MUSGRAVE STREET – Sir Anthony Musgrave (1828-1888)

Governor of South Australia, 1873-77;

Governor of Queensland, 1883-88.

Tree types: Ulmus parvifolia

Average age: 40-60 years *Average remaining life:* 0-20 years

NEWMAN STREET – Francis William Newman (c1796-1859)

First Superintendent of Hobart Botanic Gardens, 1845-59.

Tree types: Quercus robur

Average age: 40-60 years *Average remaining life:* 0-20 years
